

AIRKEY® MAXIMUM SECURITY REMOTE

AKRX44-W26

When security really matters – at no extra cost!

Neatrol Systems

www.neatrol.com.au

The AKRX44-W26 remote control receiver is designed to deliver unparalleled security for all domestic and commercial applications.

Features:

- ❑ Can be used to in parallel with any 26 bit wiegand proximity readers.
- ❑ 4 pairs of wiegand outputs provide separate card reads for each of the Airkey's four buttons.
- ❑ Self learning and self synchronizing receiver technology fully implements independent rolling key encryption for all 65536 possible card numbers within any one site code.
- ❑ Site / facility code selection by simple rotary switches ensures non matching site code transmitter transactions are not passed to the access control system.
- ❑ Compatibility with 2 and 4 channel Airkeys allows for maximum flexibility.
- ❑ Other formats including 27, 30, 32, 34, 35, 36 and 37 bit wiegand available on request (except for proprietary codes restricted to certain companies).
- ❑ 69 bit encrypted data transmission guarantees security.
- ❑ All transmissions immune from code grabbing and code scanning techniques as often used by ever resourceful thieves.
- ❑ The advanced amplifier-sequenced hybrid (ASH) receiver with 2 stages of surface acoustic wave (SAW) filtering provides excellent receiver out-of-bound rejection.
- ❑ The receiver generates virtually no RF emissions, facilitating compliance with ETSI I-ETS 300 220 and similar regulations.
- ❑ No price penalty for far superior technology.

Applications:

- ❑ Garage doors, automatic gates, access control.
- ❑ Remote arming and disarming of security alarms.
- ❑ Personal emergency or duress transmitters.
